

## *AC-400 Turntable Blister Packing Machine*

The product is suitable for hardware (alkaline batteries, button batteries, glue), stationery (pencil sharpener, eraser, correction fluid, solid glue), automobile and motorcycle match (brake pads, wiper), daily necessities (razor, toothbrush, sticky hook), cosmetics (lipstick, nail clippers, perfume) and other industry related products blister card packaging.

### **Function**

1. CAM mechanical drive, servo motor control, simple operation;
2. Stainless steel body, beautiful appearance, convenient cleaning;
3. HMI operation, PLC control system, frequency conversion speed regulation, reduce noise, improve machine running stability;
4. Photoelectric control, automatic detection, automatic output count, automatic fault reminder, improve operation safety;
5. Modular structure design, convenient maintenance, flexibility, easy to replace products.

## Main Parameter

Speed	15-20 times/min
Stroke range	30mm-240mm
Max forming area	370mm*220mm
Max forming depth	50 mm
Forming power	3.5kw(*2)
Heat seal power	4.5kw
Total power	13.5kw
Air consumption	consumption $\geq 0.5$ m <sup>3</sup> /min
Air pressure	0.5-0.8mpa
Material (PVC) (PET)	Thickness 0.2mm-0.5mm
Max paper card size	400mm*250mm*0.5mm
Total weight	2500kg
Machine dimension(L*W*H)	4600mm*1550mm*1800mm
