

## SF-3060 Automatic Dual-side Labeling Machine

### Feature:

- This dual-side labeling machine applies to dual-side or single-side labeling for square or flat shaped objects.
- Header is adjusted within 6D space; adjusting capacity is powerful and flexible. Correct labeling of any product can be adjusted within several minutes.
- Pressure between the driving shaft and pressure roller is adjustable so that the label travelling direction can be adjusted at will; it is not the common elastic pressing; labels can travel without restriction.

### Application:

- It applies to dual-side or single-side labeling of square or flat objects.

### Technical:

Item	SF-3060
Labeling precision	±1mm Single-side or dual-side labeling
	±0.5mm Circumferential labeling
Dimension of objects to be labeled	Thickness≤88mm
	Height≤460mm
Inner diameter of label roll	Φ76mm
Outer diameter of label roll	Maxi.φ400mm
Maximum width of label	200mm
Labeling speed	30-50 m/min
Power	AC220V 50Hz 4000W
Weight	435kg
Pressure range	0.4-0.6Mpa
Host dimension	3048×1200×1650mm
