

## DPH-250(130) High Speed Blister Packing Machine

DPH-250(130) High Speed Blister Packing Machine. It is adopted with flat-plate normal pressure to form, blister with homogenous hardness, roll mash sealing, equipped with dot printed, indentation device, cross punching without waste material, with high automation, high efficiency etc super function.

### Main technical parameters:

Model	DPH250
Punch Frequency (Times/min)	60-160
Capacity (strip/h)	28800
Maximun depth (mm)	10
Power (KW)	9KW
Package materials (mm)	PVC 250*0.25 PTT 250x0.02
maximum forming areas (mm)	240x250
Stroke (mm)	20-120
Overall dimension (mm)	2600¡Á900¡Á1780(L¡ÁW¡ÁH)
Weight(kg)	2200
