

## *Tablet Counting Machine (Capsule, Pill) NTC-100*

NTC-100 is applicable for various tablets, pills, coated capsules. It can be filled in plastic bags and bottles to meet different industries needs.

### **Features:**

1. Counting speed is adjustable.
2. Containers positioned by pneumatic cylinder to ensure precise orientation.
3. Dust accumulating device for smooth and efficient counting.
4. Dual chutes for feeding continually.
5. Vibration hopper makes smooth counting process.
6. No adjustment is required as changing tablets.
7. Adopted Japan Keyence high accuracy photoelectric sensor.
8. Controlled by PLC system with LED touch screen.
9. Memory parameters for fast changeover.
10. Made of stainless steel and aluminum alloy, meets c GMP standard.

**Specification:**

- Bottle size: diameter: 48mm~100mm / height: 116mm
- Capsule size: diameter>6mm, height> 3mm
- Tablet size: 2mm~30mm
- Accuracy:  $\pm 1$  tablet
- Counting speed: 600~1000 pcs/min
- Voltage : 110V or 220V
- Dimension: (L) 750mm (W) 550mm (H) 750mm

**Option Accessories:**

- 5L hopper
- Conveyor belt
- Drugs pre-fill machine
- In line capping, labeling system
