

SWP150 Lollipop Packaging Machine

SWP150 Lollipop Packaging Machine is applicable to wrapping lollipop into single twist style. Frequency converter for speed adjustment, PLC control system is used on the machine; Parameter setting and paper cutting adjustment is achieved by operator-machine interface. It is of the function of automatic running and compensating, twisting and healing of paper as well as parameter display during running.

Function:

- Automatic arrangement, reduce manual.
- Super big feeding plate, low empty bag.
- Stable operation, operation and maintenance easy.
- It adopts micro-computer control, color mark automatic tracking.

Standard Specifications:

- Speed: up to 150 packs/min;
- Packing film size: 125x125mm;
- Product size: Diameter22-30mm;
- Voltage: 380V,3P;
- Power: 2.2kw;
- Overall size: 2500x920x1520mm;
- Weight: 1200kgs;
- Wrapping Material: CPP/PET CPP/BOPP.
