

## SP-800LZ Filter Paper Tea Bag Packing Machine

1. The core of the drive control system is composed of an imported programmable controller and a large display touch screen of servomotor, therefore this machine is excellent performance and simple operation;
2. The machine is matched with the metering device to complete the whole packaging process of metering, feeding, filling bag making, date printing, and finished product transportation;
3. The perfect automatic alarm protection function can help troubleshooting timely and minimize losses;
4. Adopt intelligent temperature controller to ensure that the packing seal is nice and smooth;
5. The machine can freely convert the three sides sealing bag type or back sealing type bag type according to customer's needs.

### Technical Data:

Model:	SP-800LZ
Filling range:	40-500g(customizable)
Accuracy:	±0.2g/bag (Determined by packing material)
Packing speed:	40~50 bags/min
Packing material:	PE composite film and other heat sealability materials
Measuring method:	Volumetric Cup Metering Way
Packing roll width:	≤ Φ 380mm
Roll outer diameter:	≤ Φ 320mm
Roll inner diameter:	Φ 76mm
Bag Size:	Width≤190mm*M (No More Than 280mm)
Air pressure:	≥ 0.6Mpa(the gas will be supplied by the buyer)
Operate person:	1
Motor power:	Approximately 1.8Kw(220v)
Dimension:	Approximately L 1200×W 800×H 1850(mm)
Machine weight:	Approximately 350kg
