

DZ400 Vertical Single Chamber Vacuum Packing Machine

This equipment is suitable for vacuum packaging of food, medicine, aquatic products, chemical raw materials, electronic originals and other products. It can prevent oxidation, mildew, moisture, quality, and freshness of the product, and extend the storage period of the product. It has visual interface operation, can switch between Chinese and English, easy to use, simple to debug, fault alarm and other automatic functions. It is easier to operate and maintain. This equipment has a low failure rate and stable operation, which solves the problems of difficult maintenance and maintenance.

Technical Parameters:

Model:	DZ-400
Power	800w
Dimension	950*485*540mm
Weight	80KG
Voltage	220V/50HZ;110V/60HZ
Packing speed	1-3times/min
Chamber size	440*420*70mm
Max.sealing size	400*10mm
