

KV-420-6K Multi-lane Stick Sachet Packing Machine

Features

1. High efficiency and stability, high output, suitable for the production needs of various industries.
2. Food grade stainless steel to ensure the cleanliness of materials.
3. The integrated fixed Lapel mechanism has high precision, low friction, stable film transportation and no deviation to ensure the beautiful bag.
4. It covers a small area, which is equivalent to the size of one machine and the output of several machines.
5. It can connect the automatic feeding machine, and one person can operate 5-10 machines.

Application & Bag Type:

Application: it can pack milk powder, protein powder, yeast powder, spice powder, coffee powder, chili powder, etc.

Technical Parameters:

| Model | KV-420-6K |
|-----------------|---------------------|
| Packaging Speed | 20-50bags/min/lane |
| Bag Width | 10-85mm |
| Bag Length | 30--140mm |
| Product Height | Max.440mm |
| Power Supply | 220V, 50/60Hz, 2kVA |
