

## *Ziplock Pouch Packing Machine TH-PM-VFFS-200*

Ziplock pouch packing machine contain 3 parts: rotary packing machine, auger filler and auger feeder.

1. The whole machine adopts a full servo control system, the machine runs smoothly, the action is accurate, the performance is stable, and the packaging efficiency is high;
2. Equipment accessories adopt famous brand electrical components, and after years of market practice tests, to ensure more stable performance and durability;
3. The use of stainless steel sheet metal and additional assembly, the operation is stable, and the core components are specially optimized design and the packaging speed is fast;
4. Ziplock pouch packing machine machine has compact design, small floor space and easy maintenance;
5. Various coding, coding, exhaust, and punching systems are optional.

### **Working process**

Pouch feeding - date printing - material feeding - weighing - Pouch opening-products filling - pouch shaking (Optional) - pouch sealing #1-pouch sealing #2(optional) - end conveying

**Bag type:** All type of heat sealable performed side seal bags, block bottom bags, zip-lock reclose able bags, stand-up pouch with or without spout, paper bags etc.

**Powder type:** milk powder, wheat flour, glucose, monosodium glutamate, seasoning, washing powder, chemical materials, spice powder, tea flour, coffee powder, corn flour, fine white sugar, pesticide, fertilizer, etc.

**Parameter details:**

<b>Model</b>	<b>TH-PM-VFFS-200</b>
Filling capacity	500g - 1000g
Packing bag width	100-200mm
Packing bag length	100-300mm
Filling speed	20-60bags/min
Power supply	4.5kw, AC220V, 50Hz
Machine weight	920kg
