

Fully Automatic Lollipop Pouring Machine HTL-T150

This machine can produce various sizes and shapes of soft / hard candy by pouring.

Features:

The machine features automatic de-moulding, fan cooling and produces all different types and shapes of soft candy, hard candy and lollipop.

Main Technical:

Production capacity	150 k g / h
Speed of stroke	45-65 n/min
Steam consumption	250Kg/h
Steam pressure	0.6 Mpa
Power Voltag/e	380V
Total power	30 Kw
Compressed air consumption	0.3M3/min
Compressed air pressure	0.4-0.6 Mpa
Room temperature	< 2 5 °C
Water consumption	0.3 M3/ h
