

Vertical Full Automatic Sauce Filling Machine

Vertical full automatic sauce filling machine can freely adjust the filling volume and filling speed with high filling accuracy. The contacting material part is made of 316 stainless steel. Filling bulkhead with anti-drip and upgrade filling device; complete automatic feeding, metering, filling Bag, date printing, the product output all the production process. It is easy to operate and maintain.

Application:

Packing material: fluids, sauce: hotpot seasoning, tomato sauce, peanut butter, jam, chili sauce, bean paste and so on.

Technical Parameter:

Voltage	220/380v 50/60 hz
Power	2.4KVA
Rated pressure	0.6-0.8mpa
Filling accuracy	±1%
Optional models	30-125ML, 50-250ML, 100-500ML, 300-1000ML, 500-2500ML

Packing range 10-500ML relative detail:

Film width	Max.420mm	Film thickness	0.04-0.08mm
Bag making length	80-300mm	Bag making width	80-200mm
Rolling diameter	Max.360mm	packing speed	5-60bags/min
