

## *Cup Filling and Sealing Machine with Vacuum QCF 1-4*

Cup filling and sealing machine have different specification sealing pump. We can design different machines as per client's requirements. It is suitable for filling and sealing any level drink and pasty products in different shapes and capability vessels. For example drink, water, milk, yogurt and so on.

### **Feature:**

The machine is made with beautiful stainless aluminum molding and with near bright outlook. All the contacting part which can touch the product of the machine is made by stainless steel; it can completely meet the hygienic standard.

All the functions are worked on by machine. It is fully automatic from dropping the plastic vessel, filling, coding, sealing film, cutting film, producing the product to getting the scrap. The machine is highly efficiency and let you have more economic benefit.

It has long life to use, simple adjustment, easily maintenance.

This type cup fill seal machine suitable for food like meat, vegetable, sauce, etc. Vacuum function can help long time storage.

## Technical Parameters

<b>Model</b>	<b>QCF 1-4</b>
Voltage	380V 50Hz
Power	9 Kw
Capacity	2500 pcs/h
Heating Temperature	0-300
Air Pressure	0.45-1.0Mpa
Air Consumption	0.8-1m <sup>3</sup> /min
Dimension	3500*850*1850mm
Weight	1200kg
