

## *DG Horizontal Single Head Paste Filling Machine*

DG semi-automatic piston single head filling machine is the company's development of DTG semi-automatic piston filling series of a kind of the high concentration of fluid filling machine, it is through the cylinder, a piston and rotary valve tee to extract and with high concentration of material, principle and air cylinder is controlled by magnetic reed switch trip, you can adjust the filling quantity.

### **Technical Parameters:**

MODLE:	DG500
VOLTAGE:	220/110V 50/60Hz
POWER:	10W
RATED AIR PRESSURE:	0.4-0.6MPa
THE FILLING SPEED:	10-30Bottle/min
FILLING ACCURACY:	$\leq \pm 1\%$
FILLING RANGE :	5-60ml
