

## ZHW-120 Ice-Cream Automatic Machine

ZHW-120 Automatic cartoning machine is widely applied in ice creams, tubes, soap and other similar objects cartoning packing. The machine can automatically finish filling packaged, forming carton, inserting packaged objects, embossing batch No., close carton and finished product output functions.

- Machine with GMP standard, adopts PLC control system, easy operation and system running is stable and normal.
- Uses the safety cover protection devices to ensure operator safety.
- All components that contact with medical are made of high anti-corrosive.
- Stainless steel.
- Machine easy for cleaning.
- Embossing by steel dights.
- Can be connected with pillow packing machine.

### Technical parameters

Production Capacity	120 cartones /min
Main motor power	1.5 kw
Compressed air	0.5 Mpa >0.6m <sup>3</sup> /min
Air consumption	≥ 0.9m <sup>3</sup> /h
Machine Dimensions	2800×1350×2000 (mm)(L×W×H)
Machine Weight	1500 Kg
