

Automatic Vertical Powder Packing Machine Unit

Automatic vertical powder packing machine is specially designed for packing powder material within 100 meshes. The vertical packaging machine unit adopts screw elevator system and auger weighed system which focus on powder material elevating and weighing. Presently, The vertical form fill seal machine unit is widely applied in Grain Powder / Food Additives / Milk Powder / Cereal Powder Or Similar Material.

Function & Features

- ◆ The Machine Unit Can Realize Automatic Material Elevating, Auger Weighing, Bag Forming, Date Printing, Material Filling, Heat Sealing & Finished Products Take-off;
- ◆ The Machine Unit Can Equip With Hole Pouching Device / Bag Gusset Device / Weight Checking Device / Metal Detecting Device According to Needs;
- ◆ The Machine Unit Adopts PLC Controlling System With Touch Screen Operating Which Can Store 10 Groups Of Parameters;
- ◆ The Whole Machine Frame Is Made Of SS304 Food Level Stainless Steel Which Is Easy To Clean And Maintenance;
- ◆ The Whole Machine Is Designed According To Customer's Present Situation And Make Sure Of Perfect Installation.

Configuration

Model:	SGB480-P	SGB630-P	SGB780-P/LDPE	SGB1080-P
Max. W.:	1000g	3000g	5000g	20kg
Bag Length:	50 - 300mm	50 - 450mm	200 - 450mm	400 - 900mm
Bag Width:	100 - 220mm	100 - 300mm	120 - 380mm	300 - 520mm
Film Width:	200 - 480mm	200 - 630mm	240 - 780mm	640 - 1080mm
Speed:	15 - 25BPM	10 - 20BPM	10 - 15BPM	5 - 10BPM
Power:	AC 220 / 380V 50/60Hz 1/3Phase 5 - 9KW (For Reference)
