

Plastic Bottle Unscrambler LP-16

1. Suitable for unscrambling disorder polyester bottles
2. Make them order and in one line. This bottle unscrambler machine is suitable for unscrambling disorder polyester bottles, make them order and in one line, then discharge them by vacuum conveyor.

Specifications:

- 1) Suitable for unscrambling disordered polyester bottles.
- 2) Aligns bottles and discharges them by vacuum conveyor.
- 3) PLC program controlled.
- 4) Automatic.
- 5) High speed operation.
- 6) Easy to combine with all kinds of fillers or filling production lines.

Main Configuration:

PLC: MITSUBISHI/OMRON Inverter: MITSUBISHI/OMRON Touch screen: THINGET, Taiwan
Photoelectric: AUTONICS, Korea Contactor: SCHNEIDER, France Air conveyor: Stainless steel,
2.4m

Technical Parameters

1. Model: LP-16
2. Working positions: 16
3. Production capacity (500ml):10,000-12,000B/H
4. Suitable bottle specification: Diameter: 50-120mm Height: 150-350mm
5. Main motor power: 1.5Kw
6. Elevator power: 0.75Kw
7. Weight: 3600Kg
8. Overall dimension (L x B x H):2450 x 2250 x 2340mm
