

KENO-P350 Automatic Pillow Packing Machinery

Main characteristic

1. Compact construction, stable performance, easy to operate.
2. High inductive photoelectric eye tracking and precise sealing.
3. Separately control the temperature of every sealing, be suitable for different packing materials. And sealing is beautiful and firm.
4. Infinitely frequency conversion speed adjustment and change without pauses.

Application

Suitable for packing regular objects such as moon cake, biscuit, bread, instant noodle, toilet soap, industrial parts, paper box or trays.

Performance parameter

Model	KENO-P350B/P350D
Film width	Max350mm
Bag length	120~280mm Or 65~190mm
Bag width	50~160mm
Product height	Max. 45mm
Film roll diameter	Max.320mm
Packing speed	40~230pack/minute
Power supply	220V,50/60HZ,2.6KVA
Size	(L)4020X(W)745X(H)1450
Weight	900Kg
