

LSL-TBJ-100C Continuous Rotary Disc-Type Round Bottle Labeling Machine

This Continuous Rotary Disc-Type round Bottle Labeling Machine is our upgraded product. It's structure is simple and rational and easy to operate. It can be adjusted according to standards and features of bottles and labels. Well-adapted feature makes it appropriate for all standards of glass and plastic bottles used for food, medical and cosmetic. Satisfied labeling can be done on bottles or other containers with transparent non-transparent non-drying sticker labels.

Technical Parameters

Model	LSL-TBJ-100C
