

## ***FQL450B Manual L-Type Sealer***

FQL-450B Manual L-type sealer is useful for packing some objects by using shrink films such as PE, PP, POF, PVC, and so on. It can finish sealing and cutting at the same time, working with shrink tunnel.

### **Features:**

- The machine finishes sealing and cutting films at the same time. Some kinds of films are suitable, PE, PVC, PP, and so on.
- The operation is putting one product in the film, sealing and cutting the film according to the size of the product.
- The machine always works with a shrink tunnel, such as BS series shrink tunnels

### **Specification:**

Model	FQL-450B
Power supply	220V 50-60HZ
Heater power	0.8KW
Capacity	400-600
Max. sealing dimension(L*W)	500*450mm(L+H≤550mm,W+H≤450MM)
Film material	POF,PVC
Machine size(L*W*H)	1050*700*1170mm
Machine weight	55KG
