FQL450LB Automatic L-type Sealing Machine

FQL450LB automatic L-type sealing machine concentrates bag-molding, sealing, cutting and object transmission in one operation; use shrink film as packaging materials. It has advantages of simple operation and high capacity. It is suitable for the need of big scale production.

Technical Features

Model	FQL450LB
Power Source	220V/50-60HZ
Total Power	1.35 Kw
Power of Transverse Sealing	550W
Power of Vertical Sealing	500W
Sealing Temp.	170°C, according to thickness of film
Sealing Time	0-3 Sec, normally 0.8-1.2 Sec
Thickness of Film	0.03-0.20mm
Speed of Conveyor	21.3m/min(front), 20m/min(rear)
Speed of Film Feeding	17.6m/min
Speed of Film Pulling	19.4m/min
Capacity	1200-1600 packs/hour
Air Pressure	0.5 MPa
Conveyor Motor	AC 220V/90W
Motor of Film	AC220V/25W(have brake)
Feeding	
Motor of Waste	AC220V/40W(have brake)
Film Pulling	

Motor of Waste	AC220V/15W
Film Turning	
Packing Material	POF, OPP, PE
Max. Sealing Size	L500*W450mm
Max. Packing Size	L500*W350*H110
Machine Size	L1700*W1000*H1400mm
Weight	330 Kg
