

YC-CMF-400/850 Low Temperature Pulverizer - Cloud Mill

Yenchen Machinery's pulverizers are equipped with LTP (Low Temperature Pulverization). This technology focuses on preserving the quality and flavor of the raw materials, and the revolutionary design meets the customer's production needs for their products.

Features

1. High yield, efficient system to ensure low waste of raw material.
2. High pulverization efficiency, i.e. high kg/kw ratio.
3. A wide range of particle size supported and customizable by demand. Grinding size up to 500 mesh (25 μ m).
4. Simple maintenance: Small number of assembly parts and inexpensive consumables.
5. Simple operation yet detailed control through large LCD touch panel.

Specification

Model	YC-CMF-400	YC-CMF-850
Milling type	Pendulum type	Pendulum type
No. of rolls	3 pcs	3 pcs ~6 pcs
Roll driver	5.5kw	22~30kw
Feeder	0.2kw	0.4kw
Separator	0.75kw	1.5kw

Rotary valve	0.4kw	0.4kw
Capacity	40~100 kg/hr(rice)	200~1000 kg/hr(depends on the raw material)
	20~50 kg/hr(green tea)	250~400 kg/hr(green tea)
Powder collector	Cyclone & Cartridge filter	Cyclone & Cartridge filter
Exhaust blower	5.5kw	22kw
Operation panel	Touch screen	Touch screen
Weight(Main body)	950kg	4200kg
Dimension(mm)	1000L x 1450W x 1450H	1800L x 1300W x 1900H
