

DCJJ-300 Automatic Two Lanes Gel Sachet Packing Machine

It is suitable for the two lanes sachet filling and packing for paste, cream, gel or liquid, such as shampoo, hand sanitizer gel, cream, sauce etc.

This machine is automatic packing machine processing two rolls of film on two lanes. It is installed with two kinds of pump, piston pump or needle valve pump, which would be chosen on clients' request, the piston pump is for paste and the needle valve pump for liquid.

Features

- 1) Sachet-making, measuring, filling, sealing, cutting and counting are all finished automatically.
- 2) By either length control or photo-electronic color tracking, clients can set sachet length and cut in one step and save time and film.
- 3) The temperature is under independent PID control, more suitable for different packing materials.
- 4) The driving system is simple and reliable, and maintenance is easy.
- 5) Applicable material should be composite films like: PET/PE, Paper/PE, PET/AL/PE, OPP/PE.

Technical specifications

Model	DCJJ-300(Two lane on Pneumatic types)
Sealing type	4 side sealed bag
Measurement	Piston pump 5-30ml
Cutting type	straight cutter with tear notch
Control	PLC Touch screen
Sealer	Horizontal sealer&Vertical sealer :Line pattern
Speed	70-110 sachets/min (two lanes)
Sachet size	Length: 30-150mm
	Width: 10-80mm
Total power	3000W
Voltage	220V 50Hz 1P(can be customized)
Weight	400Kg
Machine size	L*W*H: 1500*740*1800mm
Material	Contacting parts SUS304
Includes	Inverter, two photo sensor, two date code ribbon printer, one piston pump set and one needle valve pump, horizontal stirrer inside the hopper with a lid, two sachet former, interlock safety door.
