

GPB-40SV Fully Automatic Servo Carton Erector

The fully automatic servo Carton Erector machine is a carton unpacking equipment that supports various specifications. It is equipped with a vertical material trough to store more materials, which greatly saves the problem of carton replacement and adjustment. The whole machine adopts electric eye automatic sensing, servo control and drive design, and the unpacking speed is faster and more stable. It is equipped with a safety protection door, and the tape can be replaced when the door is opened, which is more convenient and worry-free. At the same time, the whole machine adopts strict production process parts and servo drive to unpack, with a speed of 12 boxes/minute, automatically sucking and forming cartons, and equipped with broken tape and no tape automatic alarm prompt function. This carton unpacking machine has been widely used in food, medicine, beverage, tobacco, daily chemical, electronics and other industries.

FEATURES

- Replace tape quickly: Equipped with protective door, replacing tape conveniently and safely as the door open.
- Push carton board automatic buckle: Material trough fixed bracket with push carton board automatic buckle, lock material trough which is convenient for user.
- Mechanism of folding front and rear board: Upgraded mechanism of folding front and rear board, cartons can be formed faster, stable and durable.
- Siemens PLC: The internal electric circuit adopts anti-jamming technology and Siemens control program, which can control position accurately and work stable for long time.
- Endurable conveyor belt: Using durable conveyor belt with strong friction which can transport steadily.
- Automatic alarm: When tape broken or used up, the alarm will make sounds automatically. It's convenient for user to change and adjust in time.

SPECIFICATIONS

MODEL	GPK-40SV
Carton Opening Speed	12 cases/min
Carton Size	L250-450mm*W150-360mm*H100-400mm
Power Supply	220V 50/60Hz 1 Phase
Power	2050W
Adhesive Tape Width	55-72mm (Choose one type)
Carton Storage Quantity	80-100pcs (800-1000mm)
Air Consumption	450NL/min
Air Compressing	6-8kg/cm ³
Table Height	620+50 mm
Machine dimension	L2150×W2150×H1750mm
Machine Weight	450KG
