

MIC-15B Shrink Wrap Machine

For industries that require secure and professional packaging, MIC Machinery offers the MIC-15B Shrink Wrap Machine—a high-performance solution capable of processing 10-15 pieces per minute. This shrink packaging machine is designed to provide seamless, durable, and cost-effective shrink wrapping, making it ideal for various industries, including food, beverage, pharmaceuticals, cosmetics, and household goods.

Key Features of the MIC-15B Shrink Wrap Machine

The MIC-15B shrink wrap machine is engineered with advanced automation and precision, ensuring high-quality shrink wrapping for different product sizes and shapes. Its standout features include:

1. **Automatic Operation:** The automatic shrink packing machine reduces manual labor while increasing production efficiency.
2. **Fast and Reliable Performance:** Processes 10-15 pieces per minute, making it ideal for medium to large-scale operations.
3. **Uniform and Secure Wrapping:** Provides a tight, professional shrink wrap that protects products from dust, moisture, and external damage.
4. **Energy-Efficient Heating System:** Ensures optimized power consumption while maintaining consistent shrink wrapping results.
5. **Versatile Packaging Applications:** Suitable for individual product packaging and bulk shrink wrapping for retail distribution.
6. **User-Friendly Interface:** Simple controls allow for easy operation and maintenance.
7. **Durable and Compact Design:** Built with high-quality materials for long-term use while occupying minimal floor space.

Advantages of the MIC-15B Automatic Shrink Packing Machine

1. Enhanced Product Protection

The shrink packaging machine forms a tight, protective seal, keeping products safe from contamination, moisture, and tampering.

2. Cost-Effective Packaging Solution

By using shrink film, businesses can lower packaging costs while ensuring premium product presentation.

3. Increased Efficiency and Productivity

The automatic shrink packing machine significantly reduces manual labor, increasing production speed and output.

4. Professional and Attractive Packaging

A clean and uniform shrink wrap enhances product aesthetics, making it more appealing for consumers.

5. Versatile Application for Various Industries

The MIC-15B shrink wrap machine is ideal for food and beverage packaging, pharmaceutical products, cosmetics, electronics, and more.

6. Easy to Use and Maintain

Designed with operator-friendly controls, this automatic shrink packing machine requires minimal training and maintenance.

Parameter

Dimension for the whole machine	L11083mm*W1100mm*H2100mm
Thermal shrinkage passage dimension	L2400mm*W650mm*H450mm
Max package dimension	L600mm*W400mm*H350mm
Packaging speed	10-15 pcs/minute
Transfer belt width	550mm
Sealing and cutting time/temperature	0.5-1.5s 180°C-260°C
Operating power supply/power	380V 30kw
Operating air pressure	0.6-0.8Mpa
Air Consumption	0.6m ³ /minute
