

JT-610 Single Side Automatic Labeling Machine

This machine is suitable for single-sided side labeling of flat, circular, and elliptical objects, and can be produced online or operated independently.

The equipment can be customized according to customer requirements:

Multiple labeling methods such as single label on two sides, single label on three sides, single label on four sides, etc

Characteristic:

1. PLC combined with human-machine interface, intuitive operation, simple and clear
2. The entire machine is made of stainless steel and aluminum alloy, which are rust free and comply with GMP requirements.
3. This machine has functions such as bottle alignment, bottle separation, fitting, label smoothing, counting, etc
4. The position and angle of labeling can be adjusted.
5. Can be connected to conveyor belts for use on production lines.
6. Various special models can be customized according to customer requirements.

Technical Specifications:

1. Power supply: 110V/220V, 50/60Hz, 1500W
2. Labeling speed: 0-25 meters/minute
3. Labeling accuracy: ± 1 mm (excluding errors between the object being labeled and the label itself)
4. Product diameter (or thickness): 15-100mm, (special sizes can be customized)
5. Label height: 10-120 (special sizes can be customized for specific models)
6. Label roll diameter: inner diameter of paper roll 76mm, outer diameter (maximum) 360mm
7. Machine dimensions: length * width * height=2800 * 1100 * 1550mm
