

DZ260 Food Vacuum Sealer Packing Machine

The vacuum packaging machine uses plastic or plastic aluminum foil film as the packaging material to vacuum liquid, solid, powdery pasty foods, grains, fruits, pickles, preserved fruits, chemicals, medicinal materials, electronic components, precision instruments, rare metals, etc. Packaging, vacuum-packed items can prevent oxidation, mildew, moth-eaten, rot, and moisture, and extend the shelf life.

Technical parameter

Model	DZ260
Power source	220V 50/60Hz
Power	1.0KW
Workroom size	280*390*60mm
Sealing length	260*10mm
Sealing speed	1-4 times/minute
Weight	33kgs
External size	485*340
