

YL-P Semi Automatic Piston Desktop Trigger Pump Capper Screw Lid Capping Machine

The YL-P Semi Automatic Piston Desktop Trigger Pump Capper is the essential, cost-effective solution for securing a wide variety of closures in small-to-medium batch production environments. This versatile machine is engineered to handle an unmatched range of cap styles, making it a perfect upgrade from manual labor:

- Standard Screw Caps (plastic and aluminum)
- Specialty Pump Closures (trigger spray caps, lotion pumps, and fine mist sprayers)
- Unique Designs (metal bottle caps and duckbill bottle caps)

Ideal for cosmetics, beverage, pharmaceutical, and specialty food manufacturers, this benchtop capper delivers consistent, repeatable torque and sealing performance, drastically reducing operator fatigue and ensuring product integrity across virtually any industry.

Technical Parameters

Model	YL-P
Power Supply	220V 50Hz
Power	250W
Air supply	0.6-0.8Mpa
Bottle height	50-300mm (can customized)
Cap diameter	Φ25-55mm (can customized)
Capping speed	10-15 bottles/min
Machine Weight	35kg
