

DS-180SXC Horizontal Stand Up Pouch Packing Machine

This series are designed for doypack with functions of making hanging hole, special shape, zipper or spout

Independent Film Unwind Unit:

1. make sure good control of gilm tensile force
2. more flexible for roll film width or pouch specification
3. better doypack forming

Servo Advance System:

1. easy computerized specification change
2. stable pouch advance with less deviation
3. big torque moment of pouch advance, suitable for big volume

Zipper Function:

1. independent zipper unwind device
2. stable zipper tensile force control
3. even zipper seal

Spout Function:

1. even spout seal with good appearance
2. high spout seal strength, no leakage

Technical Parameters

Model		DS-180SXC
Pouch Size	mm	min.110*180 max.180*260
Packing Capacity	ppm	40-60
Filing Capacity	ml	1000
Power	kw	9
Air Consumption	NL/min	250
Machine Dimension	mm	L6600*W1100*H1500
Weight	kg	2500
