

STB-10N

Filter Tea Bag Machine with String & Tag

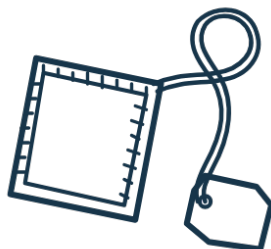

Produce individual rectangular filter-paper tea bags with string and tag for a straightforward tea-bag packing operation.

Finished package

Rectangular filter tea bag with string and tag

The reference machine produces a bare filter tea bag. Individual outer envelopes and cartoning require separate equipment.

Packaging format illustration; final material and dimensions follow sample confirmation.

STB-10N | Reference specifications

Finished package	Filter paper bag with string and tag
Outer envelope	Not included in the reference machine
Output	Confirmed with tea, filter paper and final configuration

Actual output, accuracy, materials, utilities and optional equipment must be confirmed in the project technical agreement.

For configuration review: provide tea samples, target dose, bag dimensions, packaging material, required output and destination electrical supply.
