KDF-2 Semi-Automatic Vertical Type Capsule Filling Machine

KDF-2 is a new semi-automatic capsule filling machine which is a improved machine from type 8 filling machine.

This improvement results in faster production, meeting G.M.P. requirement, more accurate filling, safer operation, simple maintenance, no noise, easy clean and less labor.

Applicable industry: Pharmacy, Biotechnology, Health Supplements, Nutritional Supplements, natural food…etc.

Features:

- All stainless shells, hoppers, machine table. ets. meet G.M.P. requirement.
- Infinitely variable speed of filling tablet with independent power and fix point filling that result in accurate dosage.
- No painting finish on the machine surface thus it can avoid that the paint strip off and mix into the powder, then fill into the capsules.
- A hydraulic join system can increase join power and smoothen join without any damage of capsule.
- A special design allows for changing mold for different size capsules within 15 minutes easily, simply, precisely.
- Simple structure and low malfunction, easy to maintain and clean.
- Simple operation, only one operator required, and operating training can be done in 10 minutes.
- No noise, no public harm.

Technical data:

Capacity:	Max. 25,000 Pcs/HR
Power Supply:	AC 220/380V, 50/60Hz
Power Consumption:	Machine 1-1/4 HP Hydrolic 1 HP Vacuum 2 HP
Machine Size	167cm x 102cm x 164cm

Packing Size	182 x 117 x 179 cm
Net Weight:	600 kgs
Gross Weight:	740 kgs
