

CM-ZB-5A Shrink wrapping machine

Shrink wrap machines apply heat to shrink a plastic film around a product. This process is often done by automated equipment, but manual and semi-automatic shrink wrap machines are also available. Shrink wrap machines cover the item, and then sent it through a heat tunnel or oven for shrinking.

Technical Parameters:

Model	CM-ZB-5A
Power supply	3P+N 380V
Maximum power required	1.5KW
Overall machine dimensions	W 980×L 1800×H 1450mm
Working plate height(on stand)	780mm
Tunnel entrance dimensions	550×250mm
Tunnel length	700mm
Machine weight	420kg
Minimum sealing dimensions	L 90×W 90mm
Maximum sealing dimensions	L 550×W 450mm
Maximum product height	150mm
Minimum film width	200mm
Maximum film width	400mm
Compressed air consumption	0.5NI/cycle
Compressed air pressure	6bar
Output	up to 1700 pcs/h
