

## SCP Auto Bottle Blowing Machine

SCP Series digit control hollow bottle blowing machine adopt all the pneumatic structure that is high efficiency, high performance and high stability product. The main parts of the machine import advanced and reliable components and industrial man-machine interface, so it is easy operation, convenient maintenance and long durability. The machine adopts frequency speed regulation. The machine is suitable for blow plastic container of toy, food, cosmetics and industry product and blow for PP, PVC, PC and PS materials. SCP series machine include one head, double head, three head and four head models; also can make mould according to customer 'sample.

### Technical parameters:

参数 Parameter 型号Model	成型 工位 Forming station	螺杆直径 Screw diameter	塑化能力 Plastici- zation ability	挤出功率 Extrude power	加热功率 Heat power	模具数量 Number of mould	开合 行程 stroke	模具厚度 Thickness of mould	模具长度 Length of mould	气源压力 Air pressure	产量 Producti- vity	机型尺寸 Dimension
SCP	5	50mm	30Kg/h	7.5Kw	13Kw	2副	100mm	50-100mm	100-230mm	0.6mpa	600-2400支 /小时 (Pcs/h)	2.3m*1.9m* 1.95m
SCP	3	50mm	30Kg/h	7.5Kw	13Kw	2副	100mm	50-100mm	100-230mm	0.6mpa	600-900支 /小时 (Pcs/h)	2.3m*1.9m* 1.95m
