

Double-Side Labeling Machine HTB-200A

HTP series labeling machine is suitable for cylindrical or flat glass bottle and plastic bottle, stick label on bottle circle, semi-circle as required position Two conveyor type: horizontal and vertical. Flat bottle can single side label or double side label.

Technical Parameters:

| Model | HTB-200A |
|--------------------------------------------------|----------------------------------|
| Speed | 150 bottles/min |
| it is related to product material and label size | |
| Square(Flat)bottle specification | Thickness 30-100mm Height ≤300mm |
| Label width | 16-160mm |
| Label length | 15-200mm |
| Outside diameter for label roller | 350mm |
| Inner diameter for label roller | 76mm |
| Power | 2.20kw |
| Weight | 400kg |
| Dimension | 2500×1850×1450mm |
| Rated exhaust pressure | ≥0.5Mpa |
