

Sleeve Labeling Machine SS-200B

- The Auruva stainless host, the whole machine is waterproof does not rust
- Adjustable cutter head original round about cut, double-sided blade, long life;
- Single positioning center guide pillar, labels guide to send more stable.
- Synchronous bottles: the bottle conveyor be more stable.
- Tag brush under group: sleeve labeling accuracy is more accurate.
- The label control electric eye frame: original tail combined with electric eye, improve membrane material cutting accuracy.
- Push-button control box: the operation more humane
- Independent for the material type rack: the freedom to choose the location of the rack.

Technical Parameters:

Model.	SS-200B
Power	1.5KW
Voltage	AC 3 ψ 380V/220V
Yield capacity	150bottle/min
Dimension	2100(L)*850mm(W)*2000mm(H)
Application of bottle diameter	ψ 28~ ψ 125(mm)
Application of label size	30mm-250mm
Application of label thickness	0.03mm-0.13mm
Application of paper tube diameter	5"-10"(free adjustment)
