

SJ-FL Powder Filling Machine (floor type)

Performance characteristics:

1. The machine adopts advanced full computer touch screen operation, man-machine interface, simple and convenient operation. The international famous brand PLC control system can automatically complete the filling, can be matched with the production line, and can be customized according to customer requirements.
2. Filling metering configuration servo drive motor, programmable automatic control, large torque, stable operation, accurate measurement.
3. The overall contact material parts and casing are made of 304 stainless steel, which meets the food and drug hygiene permit standards.
4. The advanced design ensures that the machine is suitable for adjustment, operation and maintenance in different industries. It can be used together with various automatic metering equipment at home and abroad.

Scope of application:

The powder packaging machine is suitable for packaging and filling and filling of powder materials in food, medicine, chemical and other industries.

Technical parameters:

型号	SJ-F300	SJ-F1000	SJ-F2000
包装容量ml	50-300	200-1000	500-2000
包装速度bags/min	30-40	20-35	15-25
功率Kw	1.6	2	2.75
电压V	220	220	220
外形尺寸mm	800x600x1600	800x600x1700	800x600x1800
整机重量Kg	260	280	300
