

Turntables

Worldpack also offers industrial turntables precisely engineered to machine requirements. Turntables highly increase output efficiency enabling labellers to perform at maximum capacity and promote efficient packaging of products. Worldpack turntables are capable of operating at variable speeds thus suiting the efficiency and requirement of the products being packaged. These turntables are made of 304 stainless steel and hence are extremely durable and require very less maintenance.

Technical Specifications

SPEED	200 BPM
MOC	SS 304
POWER SUPPLY / CONSUMPTION	220VAC/ 50HZ/ SINGLE PHASE/ 0.37KW
OPERATING SYSTEM	START & STOP WITH ADJUSTABLE SPEED USING ALLEN BRADLEY DRIVE
TABLE DIAMETER	600MM/ 900MM/ 1200MM
WEIGHT	125KG
APPLICATION	PRODUCT TRANSPORT AND COLLECTION
