

Packaging Machine (Intermittent Motion) VFM200PA

It is suitable for automatic packaging of paste of foods, medicine and chemicals, such as pesticide shampoo, and body foam bath lotion, facial cream, ingredient oil, fruit sauce, tomato ketchup and honey etc.

Features:

1. Plug and play design, micro-computer control, no need technical background to operate and adjust.
2. Economic cylinder pump weighing filling system, easy to adjust for different net weights.
3. Reliable photoelectrical sensor to track color mark for precise bag length.
4. Separate intelligent temperature controllers for perfect sealing, make different composite packaging films applicable.
5. SS304 frame, durable, robust, anti-corrosion and easy to clean.
6. Capable to record production parameters for 5 products, easy to change different productions.
7. 10 years serving life under routine maintenance.

Technical Parameters:

Model	VFM200PA
Bag Size	L:80-300mm, W:50-200mm
Packing Speed	20-50bpm
Dosage Range	100-1200ml
Power	220V, Single Phase, 50Hz, 2.8kW
Machine Weight	550kgs
Machine Dimension	1200mmx800mmx2000mm (L*W*H)
Function Description	Semi-automatic: bag making, filling, sealing, cutting.
