

Multifunction Automatic Horizontal Cartoning Machine

Multifunction automatic horizontal Cartoning Machine is suitable for packing AL/PL Blister, bottle, Pillow Type Bags and other related similar content compact automatic leaflet folding, box opening and loading, batch number embossing as well as sealing technology processes. (Options hot-glue device extra)

The machine adopts PLC Control. Optical detect every part of the machine. The machine will stop automatically and trouble display when machine running exceptional in order to solving trouble in time. This machine can be used separately and also connect with Blister Packaging Machine online.

Features:

1. Rejection automatically if no product, nonstandard height or lack of leaflet.
2. Stop automatically if incorrect position of products into carton.
3. Stop automatically if no cartons or out of leaflet continues.
4. Easy to change to different products.
5. Protecting automatically for overloading.
6. Automatically display device for speed and finished products counting.

Technical parameters:

Weight in kg	1100
Steady production speed	50-100 cartons/min
Grammage	Between 65-80g/m ²
Size range	(80-210) × (70-210)mm (L×W)
Fold range	(1-4)fold
Grammage	Between 250-350g/m ²
Carton Size mm	(40-200) × (12-85) × (16-70) mm
Standard power supply	220V – 50Hz
Power consumption in KW	01.май
Air consumption	120-160L/min
Compressed Air Pressure	0.5-0.8MPa
Noise	<70 B
