

JGL Series Automatic Wet-glue Labeling Machine

This machine delivers label, gummed with resinous glue, from turret to vacuum belt and from belt to the bottle surface. It is possible to quickly exchange different bottle and label sizes with ease. It is simple in operation, neat, easy to clean up and suitable for round container labeling applications in industries, such as chemical, pharmaceutical, food, winery, etc.

Technology Parameter:

- Applicable Bottle Diameter : $\Phi 25\text{mm}-95\text{mm}$
- Label Height : $\leq 200\text{mm}$
- Label Length : $\leq 320\text{mm}$
- Labeling Precision : $\pm 1\text{mm}$
- Capacity : ≤ 4000 BPH
- Power Source : $\sim 220\text{V}$ 、 50HZ
- Power : 1KW
- Weight : About 450Kg
- External Dimension : $2400 \times 1100 \times 1300\text{mm}$ (L×W×H)
