

MT-150 Small Automatic Round Bottle Labeling Machine

It is suitable for round bottle labeling in the pharmaceutical, food, daily chemical and other industries. Simple structure, compact appearance and powerful function. It adopts card position adjustment, easy to switch labeling of different workpieces, advanced electric eye, high detection sensitivity of objects and labels. Synchronous belt traction, the mechanical stability is greatly improved. Suitable for self-adhesive labels, self-adhesive films, electronic supervision codes, barcodes, etc., and suitable for round bottle labeling such as plastic bottles, glass bottles, and metal bottles.

Technical Parameters:

Model:	MT-150
Working Method :	Full Automatic
Labeling Speed:	20-200 pcs/min
Attached object size:	30-120mm
Label Length:	25-300mm
Label Width:	15-150mm
Labeling Accuracy	±0.5mm
Machine Size	1270*1000*780mm
