

## FXG-1H Single Head Automatic Capping Machine

FXG-1H full-automatic following type capping machine is composed of cap conveying mechanism, capping mechanism, moving module, bottle conveying mechanism and control system. The machine has simple structure and convenient adjustment. The product completes the capping action in the process of moving, which is different from the normal capping machine that needs to stop during capping.

### Parameters:

Speed	≤2000 bottles/hour(1L bottle for example)
Qualified rate	≥99.9%
Suitable bottle	Min:140×60×230mm Max:260×145×330mm
Cap size	Φ25-70mm
Air pressure	0.6-0.8 Mpa
Power	~380V 50Hz 4.1KW
Machine weight	Around 1200Kg
Machine size	1995×1380×2237mm(L×W×H)
