

Automatic Filling Machine & Rotary Capping Machine – CE-1000L/GC-4 + CE-1/XGJ

Adopted piston quantitative, mechanical and electrical, pneumatic in one, electrical and pneumatic components used well-known brands, from the touch screen, PLC control, rational design, compact structure, beautiful appearance, with stable and reliable performance, filling accuracy, adaptability, simple operation, Easy maintenance and so on. Automatic paste filling machine is widely used in a variety of semi-fluid, paste, thick body, thick sauce, sauces and a variety of materials containing the filling of granules. Such as syrup, pulp drinks, honey, sesame, tomato sauce, jam, peanut butter, chili sauce and a variety of paste filling.

Technical Parameter of Filling Machine:

Model	CE-1000L/CG-4
Brand	FULLWELL
Voltage	AC220v
Power	0.8kw
Filling range	50-100ml / 100-300ml / 300-1000ml / 1000-5000ml (can select)
Production Speed	30-50bottle/m
Air pressure	0.4-0.6Mpa
Suitable bottleneck diameter	≥50mm
Filling heads	4 (2/4/6/8) can select

Technical Parameter of Capping Machine:

Model	CE-1/XGJ
Brand	FULLWELL
Voltage	AC220v
Power	1.5kw
Cap diameter	20-60mm
Production Speed	15-30bottle/m
Air pressure	0.4-0.6Mpa
Suitable bottleneck diameter	≥50mm
Dimension (L x W x H)	2500 x 1400 x 1600mm
