

Automatic Cartoning Machine For Toothpaste

The Automatic Cartoning Machine For Toothpaste Mustard Ointment is a full-automatic hot-melt glue cartoning machine model of our company, which is mainly customized for the packaging of toothbrush, toothpaste, plaster, mustard and other products. The machine carries the batch number printing function, and three sealing forms of glue spraying, and box inserting and bottom buckle can be customized. In addition to manual discharging, it can also be connected with the front packaging equipment or customized automatic blanking equipment.

Features:

Automatic Cartoning Machine For Toothpaste Mustard Ointment integrates box opening, loading, folding, glue spraying and box sealing. It is suitable for multi variety and multi specification carton packaging machines, and is equipped with domestic advanced full-automatic high-speed double spray gun hot-melt glue machine.

1. It is made of superior 304 stainless steel and aluminum profiles, which is corrosion-resistant, easy to clean and durable. We have more than 20 years of production experience, mature technology and beautiful appearance;
2. It complies with relevant national food safety and health laws and regulations and GMP certification requirements;
3. PLC + color touch screen control system, accurate control, automatic memory parameter setting function, parametric control production, simple operation and labor saving;
4. Powerful self inspection program, imported detection electric eye, automatic alarm and shutdown function without material shortage, so as to save the production cost of the enterprise, avoid unqualified products and improve the production efficiency;
5. Wide applicability, adjustable product scope of application, no need to replace accessories, wide compatibility, convenient and fast adjustment. The automatic cartoning machine for toothpaste mustard ointment can be connected to the production line to form a fully automatic production line.

Technical data:

product function	Automatic box opening, box loading and box sealing
applicable industry	Toothpaste, mustard, ointment, etc
production speed	40-60 boxes / min
carton requirements	250-320 g / m ²
gas consumption	10 ~ 15L / M
gas source pressure	0.6 ~ 0.8MPa
Min box size	80mm x 40mm x 20mm
Max box size	220mm x 170mm x 70mm
