

LU-250 High-Speed Arrange Bottles Machine

- Built-in hopper space and arrange bottle turntable are dramatically reduce noise.
- Con tact with bottles are stain less steel material.
- Stainless steel body plus transparent cover, isolate external pollution and safety protect.
- With user-friendly controlling screen easy to operation.
- Provide arrange bottles trough static electricity remove device, ion air blow and dust catcher series.
- PLC industrial control system.
- Accurately turn bottle and exclude bottle recycling system.
- Production speed up to 200 bottles or more, accordance comm on bottle size.

Technical Parameters

| Model | Power | Power consumption | Air consumption | Bottle diameter | Bottle height | Machine dimensions |
|--------|---------------------------|-------------------|-----------------|-----------------|---------------|-------------------------|
| LU-250 | 220V 50/60HZ single phase | 2KW | 3.5cfm | 30-120mm | 50-200mm | L2210 × W1130 × H1420mm |
