

SF-3030 Automatic Round Bottle Labeling Machine

Feature:

- Advanced HMI operation, PLC control;
- It applies to labeling of most round or cylindrical objects and is widely applicable. Its appearance structure is made of 304 stainless steel.
- It has the stainless steel (aluminum section) structure and three-color indicating light showing working status; the whole machine is beautiful and decent.
- New step drive, fast labeling speed, stable labeling performance

Application:

- It applies to labeling of most round bottles or cylindrical objects.

Technical:

Item	SF-3030
Labeling precision	$\geq \pm 1$
Labeling dimension	Width: 15-120mm length:15-350mm
Inner diameter of label roll	$\Phi 76$ mm
Labeling speed	25 m/min (0-200bottles/min)
Power	AC220V 50/60Hz 750W
Weight	166kg (excl. coding machine)
Pressure range	0.4-0.6Mpa
Host dimension	1900×953×1362mm
