

Shrinkable Label Inserting Machine XYL-450L

Description

- Machine constructed by stainless steel with especially and luxurious appearance. Conform to safety regulation. Single machine structure ensures convenient installation.
- Modular design for quick changeover
- New accumulating label system use precision roller design with splicing system. One minute accumulating period to achieve the production speed up to 450 bpm on 100 mm label height.
- High speed splicing system enables reel change without machine to stop. Improve line productivity.
- All adjustable modular parts require simple operation and minor adjustment.
- The accurate gear wheel design for driver system to stable the transition speed and limit the label height within (+/-) 1mm tolerance.
- Using supersonic sensor to detect sleeve with the spring tension controller system to ensure feeding sleeve steady.
- Colorful interface touch controller for friendly user operation.
- Machine design can fit the label height up to 300mm and above.

Specification

Model	XYL-450L
Power source	3P/ 220V~ 415V
Production rate	450BPM(label length 180mm)
Range of bottle diameter	Ø25 ~ Ø125
Label insertion length	25mm ~ 220mm
Range of label thickness	0.035mm ~ 0.08mm
Material	PVC, PET, OPS
Total Power	5KW
Machine dimension (L×W×H)	1190 × 1250 × 2100mm
