

CCE-ZH-100G Automatic Cartoning Machine For Tubes Injection

This machine is applicable for encasing ointment, injection and vial etc automatically. The working process is product conveying, leaflet conveying (1-4 fold), carton opening and conveying, box and leaflet encasing, meanwhile finish auto batch coding and carton sealing. (Hot melt glue device as option)

Technical Parameters:

Electric power	AC220V 50HZ motor power 0.75KW
Production capacity	Rotation speed 30-100b/min
Volume of consumption	120~160L /min (pressure0.5-0.8Mpa)
Packing material	Box requirement:250-350g/m ² (according to its dimensions to confirm)
	Specifications: Max.Size(LxHxW)200x80x50mm
	Min.Size(LxHxW):50x20x14mm
Leaflet	Paper requirement:55-65g/m ²
	Specifications: Max.Size:240x190mm(LxW)
	Min.Size:80x90mm(LxW)
Overall dimension	3100x1100x1600mm
Machine Weight	about 1.5T
