

LW Series Plane Labeling Machine

Automatic plane labeling machine, suitable for flat plane labeling machine, especially suitable for paper side, top, bottom, machine body is small, can be used in narrow places, can also be used in wiring, can add barcode printer, integrated with the supervision system.

- It is mainly composed of SUS304 chassis, conveyor belt, labeling head and head adjustment machine.
- Siemens PLC, touch screen, servo motor as the main component, control equipment running at high speed.
- Equipment safe, efficient and stable, and conforms to GMP and CE specifications.
- Friendly operation interface, convenient setting,
- Main Functions: product counting, output equipment, multi group parameters, equipment status monitoring, automatic shutdown of equipment failure, alarm, fault location and help information.

Technical Parameter:

Labeling Speed	10-130 m / min
Label width	10-130mm
Labeling Accuracy	±5mm
Label length	10-250mm
Total power	1.2KW
Voltage	220V 50-60HZ
External dimension	2000*800*1350mm
Equipment weight	180Kg
