KZ-CRI Automatic On-line pallet Wrapping Machine

Brief introduction:

This automatic on-line pallet film wrapping machine is applicable to the automatic packing requirements in modernize enterprise. It could be connected with producing line and can increase packing efficiency, reduce working intension. At present, this machine has widely used in chemical, electronic, foodstuffs, papermaking etc.

Technical Parameter:

Wrapping size (L×W)	(500-1400)mm×(500-1200)mm
Packing Height (MAX)	1800mm or 2400mm
Packing Efficiency	40-60 Carton/hour
Turntable Speed	0-15rpm (The turning speed is adjustable and the turntable can be placed accurately.)
Turntable Loading (MAX)	2000Kg
Turntable Height	625mm
Conveying Speed	12m/min
Conveying System	Roller, chain line or other structure is optional for dynamic conveyor
Film Carriage System	Film Stretching frame, pre-stretch film at 250%, auto film feeding and its speed is adjustable.
Control System	PLC Control, check product's height automatically, wrapping layer and time is adjustable.
Power/Voltage	2.3Kw/AC220V
Machine Weight (MAX)	1200KG
Dimension	3000×2000×3000mm
