

Beer Filling Equipment GF-TF-12

Product Description:

The machine integrating with filling and sealing is mainly applied for the filling of beer. Integrating with filling and sealing, it realizes full automation in the whole process, suitable for PET and glass bottle filling of beer. The bottle types applicable for various parts are easily, conveniently and rapidly adjustable. The machine adopts advanced OMRON programmable logic controller (PLC) to control the automatic running of the machine, realizing the automatic control of the whole production line.

Technical Parameters:

Filling Workstation	60
Capping Workstation	12
Production Capacity	18000B/H (500ml)
Machine Power	7.5kw
